4. Start XAMPP Control Panel directly from windows or go to C:\xampp and scroll down to xampp-control
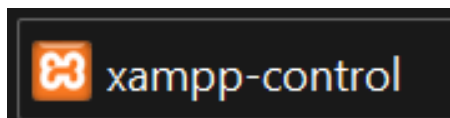

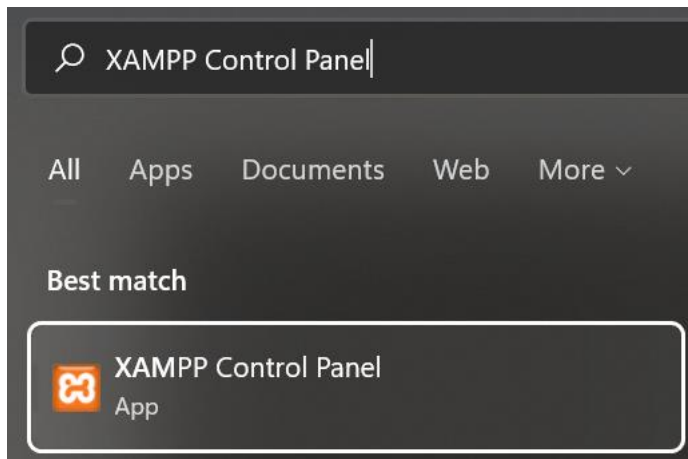

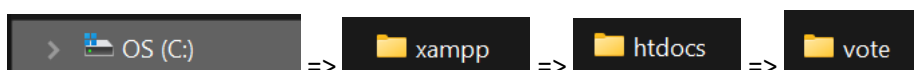

5. Start Apache and MySQL in XAMPP

6. Open any browser and search localhost/vote and localhost/phpMyAdmin
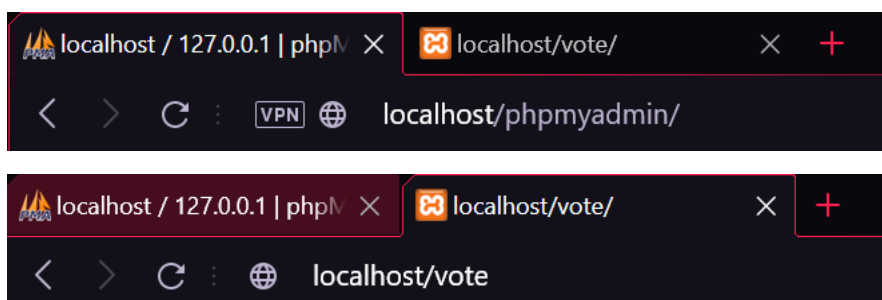

7. Open the C:\xampp\htdocs\vote

And open index.php

Add /* at line 65

```
 65        /*
 66        $sql = "INSERT INTO election_center(center_id, pin, c_name) VALUES
```
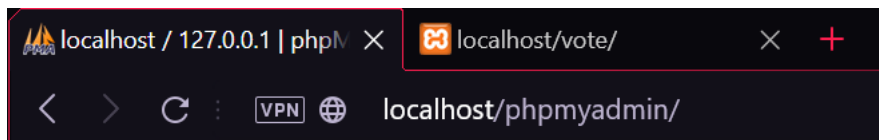

And add */ at 174

```
172            echo "Data Not Inserted";
173        }
174        */
```

8. If you want to run SQL queries then go to

localhost / 127.0.0.1 | phpM ✕   🔶 localhost/vote/   ✕   +

‹ › C ⋮ VPN 🌐 localhost/phpmyadmin/

Click on:

⊟ 🗋 vote

And then click on:

Structure | 📄 SQL | 🔍 Search | 📄 Query | 📥 Export | 📥 Import | 🔧 Operations | 📰 Privileges | 🔩 Routines | 🕐 Events

If you want to run queries on a specific table then:

Select the table:

⊟ 🗋 vote
    📄 New
    ⊞ 📊 candidate
    ⊞ 📊 constituency
    ⊞ 📊 election_center
    ⊞ 📊 result
    ⊞ 📊 voter
